Summary

Python backend engineer, MySQL in production.

Experience

Backend Engineer, Quillbase (2020 - present)

- Python services with SQLAlchemy on MySQL 8; designed tables and indexes for the orders service.
- Wrote Alembic migrations for production, including a data backfill run in batches overnight.
- Fixed N+1 queries with joinedload and added covering indexes after EXPLAIN.
- pytest suite with a MySQL container in CI.

Skills

Python, SQLAlchemy, Alembic, MySQL, pytest, Docker
